5 & 6 Gardening Club 2023

Dear Parents and Carers,

The school is offering a Garden Club as a lunchtime activity for Years 5 & 6. This program is for students who enjoy gardening as an extra-curricular activity. Students will be involved with planting, weeding and pruning the gardens on the school grounds. Students will also have exciting opportunities to work with environmental experts from Ku-Ring-Gai Council. Due to the seasonal nature of gardening, the club will meet when the garden requires care. If you would like your child to participate in this opportunity, please fill out the form below.

Cyrus Katrak
Organising Teacher

Please sign and return to Mr Katrak

2024 Gardening Club

I give permission for my child in class to participate in the Gardening Club. I understand that students will be digging in dirt, as well as other related activities.

Medical Information:

Does your child suffer from any allergies relating to a gardening environment? If yes, please give details.
